Please make sure that you bring the following items with you

Protected clothing		
- Plastic with gauntlet bee gloves		
- Suit - Overall		
- Veil (hat required)		
Book - Bee Keeping in South Africa	Optional but highly recommended	

- Candidates must have the above protective clothing in order to participate in the practical sessions.
- The book "Beekeeping in South Africa" is recommended for those attending the course

Lockdown Precautions

We are still in lockdown level one which permits training on condition that precautions such as social distancing, masks and hygienic sanitizing are adhered to. Candidates will be able to practice social distancing during sessions and meals will be served to maintain a level of safe distancing. You will be accommodated in separate rooms but may have to share cottages unless coming as a couple or family in which case you will be allocated a cottage. Working with bees in the field will have enforced protection from bees and thus, we trust, from any virus as well.

Past experience with bees	
Any known allergic reaction to stings:	

DISCLAIMER

The candidate registering for the course agrees that he/she will not hold the organizers of the course responsible for any injury, death or material loss of property. The organizers include the organizer J. Moodie, Honeywood Farm or mentors appointed to assist candidates with their learning. This will also apply to any transportation involved for the course necessary for the learning process. The organizers will take every precaution to ensure the safety of the learners but they must realize that working with bees involve risks and the wearing of protective clothing. Candidates are urged to follow precautions outlined during the course to ensure that they do not expose themselves or the general public to any of the risks involved when handling bees.
